Management Discussion and Analysis

Overview

THE INTERNET AND THE WORLD-WIDE WEB HAS BEEN ONE OF THE MOST INFLUENTIAL TECHNOLOGY-DRIVEN DEVELOPMENTS THAT HAS AFFECTED HUMAN LIVES ACROSS THE WORLD IN THE LAST COUPLE OF DECADES. FUNDAMENTALLY IT IS JUST A NEW MEDIUM OF COMMUNICATION BUT ITS IMPACT ON THE WAY PEOPLE LEAD THEIR LIVES HAS BEEN PHENOMENAL. **WHILE THE ON-LINE MEDIUM IS AN ENabler, THIS MEDIUM TO EVOLVE A RAPIDLY GROWING BUSINESS BASED IN THE CORE MANUFACTURING OF DEVELOPING DIFFERENT PLATFORMS FOR ON-LINE CLASSIFIED** IN THIS SPACE, THE COMPANY HAS EMERGED AS A PIONEER AND AN INDUSTRY LEADER IN INDIA.

The Company's business model has evolved on a principle of "being local, thinking global". In essence, what this means is that it has laid much emphasis on understanding the dynamics of communities that interact in the physical space often at a very local level and transformed their interaction onto the global platform of the world-wide web. In that sense, it has targeted specific market segments within India utilizing technological tools that are state-of-the-art from a global perspective.

While the on-line medium is a key differentiating factor for the Company, it is important to appreciate that within this space Info Edge has always focused on enhancing its execution excellence to deliver results and drive its leadership positioning.

Clearly, execution excellence is all about hitting the bottom line - delivering results based on objectives but it is important to appreciate that such a successful execution orientation encompasses a

- PRACTICAL DESIGN OF THE END PRODUCT: At the very concept stage, the Company details the specifications so that the market need defines the end product while technology is an enabler and driver yet not the deciding factor
- EMPHASIS ON A BUSINESS PLAN that not only looks at product development but also brand building, customer connect, distribution mechanisms and revenue models
- EFFECTIVE MANAGEMENT of the different phases of a product life cycle - when to invest, when to focus on tightening costs or when to re-amp a product
- CONTINUOUSLY SUPPORT THE PRODUCTS through cutting edge technology
- FOCUS ON REGULAR IMPROVEMENTS in the online customer experience

Today, Info Edge is a portfolio of different businesses, all in different stages of their product life cycle yet unified under the single umbrella of the "online classified" business space. Box 1 details the different businesses.
